SOFTWARE ENGINEER | FULL-STACK & AI

Computer Science student at Manipal University Jaipur with hands-on experience building full-stack web applications, backend systems, and AI-powered tools. Experienced with TypeScript, JavaScript, Python, React, Next.js, Node.js, Express, and databases. Active open-source contributor interested in software engineering, AI systems, and building products from the ground up.

TECHNICAL SKILLS

Languages: Python, C++, C, JavaScript, TypeScript, SQL, Go

Frontend: React, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB, Supabase, Firebase

Tools: Git, GitHub, Docker, Linux

PROJECTS

Memora — AI Memory & Productivity System

- Built a personal relationship-memory platform for storing people, memories, conversations, and contextual information.
- Implemented relationship graphs and contextual profiles to connect people, memories, and interactions.
- Developed conversational memory and suggestion workflows for retrieving relevant context.
- Designed a responsive product interface with reusable components and animated interactions.

Next.js, TypeScript, React, Supabase, Tailwind CSS

SnapLink — Full-Stack URL Shortener

- Built a production-style URL shortener supporting custom aliases, QR-code generation, redirects, and click analytics.
- Designed reusable Express.js API architecture with schema validation and structured error handling.
- Implemented browser-based analytics dashboard for tracking link performance.
- Added automated API testing using Jest and Supertest.

Node.js, Express.js, MongoDB, Mongoose, Zod, Jest

Narrative Control Analyzer — AI Analysis Tool

- Built an AI-powered tool for analyzing emotional language and narrative framing across multiple reports of the same event.
- Integrated Google Gemini to analyze emotional intensity, narrative framing, and potential reader perception.
- Developed comparative analysis workflows for identifying differences in framing across sources.
- Built visual indicators to communicate emotional and narrative patterns.

Node.js, Express.js, JavaScript, Google Gemini, Firebase

EDUCATION

B.Tech in Computer Science & Engineering | 2025–2029

CGPA: 8.74/10
